

# In Conclusion

---

# Whitefield Communities – SWM Survey

SWM Survey sent out in mid Feb to 60 communities

- Received 48 responses!

Over 40 communities have implemented some form of segregation

- Less than half compost their wet waste in-house (17)
- Several give their wet waste to BBMP
- Over half don't have authorized dealers for other waste

# Final Word

---

While segregation at source is key first step...,

Ensuring the segregated waste is transported to the right place and processed properly is needed to ensure the segregation is not in vain

Whitefield Rising SWM Website launched –

<https://whitefieldrising.org/solid-waste-management>

# A Note of Thanks!

---

Our primary sponsor, Alila Bangalore, for graciously providing us this fantastic venue and all the facilities

Apartment Adda and VDB for sponsoring this event

All the insightful speakers and presenters for their time and knowledge

The Whitefield Rising team and volunteers for making this happen

**All of you to have joined us to make this a success!**

# Only One Earth

## Segregate Waste
